Who We Are

We are a small non-profit organization dedicated to Digital Inclusion. Today, I would like to share with you a groundbreaking opportunity in the field of fundraising.

Context and Importance of the Cause

Currently, our fundraising efforts are limited by outdated systems that are often slow and lack transparency.

1

Building Trust with Stakeholders

Ethical practice is essential for establishing and maintaining trust with various stakeholders, including customers, employees, and partners. When an organization is known for its ethical behavior, it fosters a positive reputation and builds confidence among those it interacts with.

2

Long-Term Sustainability

Ethical practices are often linked with sustainable business strategies. Organizations that prioritize ethical decision-making are more likely to consider the long-term impacts of their actions, leading to sustainable growth and stability.

3

Risk Mitigation

Adhering to ethical standards helps in mitigating risks, particularly legal and compliance risks. Ethical practices ensure that an organization operates within the bounds of law and industry regulations, thereby reducing the likelihood of legal issues and penalties.

4

Employee Morale and Attractiveness

A strong ethical foundation within an organization can significantly boost employee morale, as employees generally prefer to work for companies that align with their personal values.

Campaign Goals

Our goal is to create a fundraising portal based on blockchain. This will not only automate the process but also provide complete traceability of donations.

1

Financial Goal

Raise a specific amount of funds (1000 ETH) through our blockchain-based fundraising portal to finance the development and maintenance of the platform.

2

Technical Goal

Successfully develop and launch a user-friendly, secure, and transparent blockchain-based fundraising platform within the next 12 months.

3

Community Engagement Goal

Engage with at least 5,000 individual donors and secure partnerships with at least 10 corporate entities to foster a diverse and supportive fundraising community.

Explanation of the Smart Contract in Solidity

Solidity is a contract-oriented programming language used for writing smart contracts on the Ethereum blockchain. A smart contract is a type of digital agreement that self-executes when certain conditions are met.

Operation of the Smart Contract for Fundraising

- **Donation Receipt:** Users send funds, updating the contract's **balance**.
- **Donor Registration:** Tracks **unique donors** for community engagement.
- **Donation Events:** Records each donation's **amount** and **donor details**.
- **Goal Monitoring:** Checks if the **fundraising goal** is reached or pending.
- **Fundraiser Closure:** **Manager** can end the fundraiser to stop donations.
- **Fund Withdrawal:** **Manager** retrieves **collected funds** post-closure.

DONATE

How to Contribute

Join our mission to
create a more inclusive
digital world. Your
contribution can make a
real difference.

Ways to Donate

You can contribute to our project through monetary donations, technical support, or by helping us spread our mission.

Benefits of Blockchain for Donors

Thanks to blockchain, each donation is traceable and secure, ensuring maximum transparency and reliability.

THANKS

Conclusion

**IN SUMMARY, OUR PROJECT IS
NOT JUST A FUNDRAISER, BUT
A STEP TOWARDS A MORE
TRANSPARENT AND EFFICIENT
FUTURE IN THE NON-PROFIT
WORLD. JOIN US ON THIS
INNOVATIVE JOURNEY.**

We are deeply grateful for your interest and support. Every contribution, big or small, makes a difference.
